

My profile

SaltOS allows you to customize and configure various aspects of the application:

- General Preferences (language, appearance, password, etc.)
- User Boxes
- Quick Menu
- Google Calendar
- RSS Feeds
- Email Accounts

To access the general settings click *My Profile* in section **General** the vertical menu.

General Preferences

On the first tab you can select the application language, theme or color scheme and the game application icons.

To change the password to access the application, enter your current password in the box 'Key Antigua' and then the new one in the two text boxes 'New Password' and 'Repeat password'.

Enable reading and voice notifications (emails, feeds and calendar), marking enabled this voice reading this box, every time you get a new email, feeds and calendar, SaltOS will read the content. This functionality requires a library on the server.

Libreria: Festival. More information [+](#)

Enable integrated with desktop notifications, marking this box enabled this desktop notifications browser. This feature requires an add-on in certain browsers.

Firefox: HTML5 desktop notifications + (Soon this funcionalidad will come included in the browser)

After making any changes on this tab click 'Update'.

Quick Menu

In this section you can add and remove buttons from fast to the top bar of SaltOS access.

To add a new button, select the application you want to access directly to the corresponding dropdown button.

User Boxes

The screenshot shows the 'Carpetas de usuario' tab in the SaltOS interface. The left sidebar contains a menu with options like 'Inicio', 'Correo electrónico', 'Agenda y eventos', 'Lector de feeds RSS', 'Favoritos', 'Documentos', 'Mi perfil', 'Soporte técnico', 'Acerca de SaltOS', and 'Cerrar sesión'. The main content area has a title 'Configure aquí las carpetas de usuario para luego dejar lo que desee'. Below this, there is a table with two columns: 'Nombre de la carpeta' and 'Cuelga de la carpeta'. The first row shows 'Carpeta personal' and '[Sin carpeta]'. Below the table, there are input fields for 'Nueva carpeta de usuario' and 'y cuelga de la carpeta', both currently set to '[Sin carpeta]'. There is an 'Añadir' button next to the second input field. At the bottom right, there are 'Actualizar' and 'Volver' buttons.

From this tab, you can rename the folders as desired, create new folders or delete folders that do not use. These options allow you to have the necessary folders so you can organize your information in the best way.

Google Calendar

The screenshot shows the 'Sincronización de la agenda con el servicio de Google Calendar' page in the SaltOS interface. The left sidebar is the same as in the previous screenshot. The main content area has a title 'Sincronización de la agenda con el servicio de Google Calendar'. Below this, there is a paragraph explaining that this option allows using the agenda from SaltOS and Google Calendar, keeping data updated automatically without the need to replicate data from one agenda to another. Below the paragraph, there are input fields for 'Cuenta de correo de gmail' and 'Clave'. At the bottom right, there are 'Actualizar' and 'Volver' buttons.

To synchronize your personal calendar with your Google account, enter your Google username (usually your Gmail account) and password of it here.

RSS Feeds

The screenshot shows the 'Feeds configurados' tab in the SaltOS application. The main heading is 'Configure los feeds que desea leer desde SaltOS (RSS 1.0, RSS 2.0 y Atom 1.0)'. There are input fields for 'URL', 'Título', 'Enlace', 'Descripción', and 'Imagen'. To the right of the 'URL' field are buttons for 'Probar' and 'Añadir'. At the bottom right are buttons for 'Actualizar' and 'Volver'. A left sidebar contains a menu with options like 'Inicio', 'Correo electrónico', 'Agenda y eventos', 'Lector de feeds RSS', 'Favoritos', 'Documentos', 'Mi perfil', 'Soporte técnico', 'Acerca de SaltOS', and 'Cerrar sesión'.

Here you can add the RSS and preferred to refer to SaltOS feed reader Atom account.

To add a new feed, click the 'New Feed' tab and enter the address into the box 'URL'. If you know the address, enter only the address of the website and click on 'Test'. SaltOS attempt to automatically find the address of the feed and show the additional information of Feed. To add the feed reader of SaltOS click 'Add'.

In the tab **Feeds configured** find the Feeds and added to SaltOS. To disable or delete a Feed click 'Delete' or 'Off' or tick the corresponding checkbox. Then click 'Update'.

The screenshot shows the 'Feeds configurados' tab in the SaltOS application. The main heading is 'Listado de feeds RSS configurados'. There is a table with two rows of configured feeds. Each row has a checkbox for 'desactivado' and a red minus icon for deletion. At the bottom right are buttons for 'Actualizar' and 'Volver'. A left sidebar contains a menu with options like 'Inicio', 'Correo electrónico', 'Agenda y eventos', 'Lector de feeds RSS', 'Favoritos', 'Documentos', 'Mi perfil', 'Soporte técnico', 'Acerca de SaltOS', and 'Cerrar sesión'.

Email account

The screenshot shows the SaltOS web interface with a top navigation bar and a left sidebar. The main content area is titled 'Configure a new POP3 email account for your user'. The form includes fields for Name, Email, and a signature image. There are checkboxes for 'This account is private' and 'Default account'. Below these are fields for POP3 and SMTP server details, including port, security, user, and password. At the bottom, there are checkboxes for deleting messages, activating receipt confirmation, adding to CC, and disabling the account, along with a 'Dias' field. The form ends with 'Actualizar' and 'Volver' buttons.

In the tab 'New Mail', configure your external POP3 mail account to manage it comfortably from SaltOS.

Fill in the details 'Name' and 'Email' and add, optionally, an image to sign emails. Then indicate the name of your mail provider:

- POP3 Server: eg mail.su-dominio.com
- Ports: normally 110
- Security: TLS or without security
- User: usually your email
- Key to your email

Do the same in paragraph outgoing SMTP server.

If you want the emails are deleted periodically check the appropriate box. To automatically respond to requests for confirmation of receipt check the box **Activate default request acknowledgment**. If you would like to copy the emails you send check **Add me to me like CC on all emails you send**. To temporarily deactivate the account check the box **Disable this email account**. You can set the default account from which mail is sent by checking the box **Default account (the most use)**.

In SaltOS can share mail with other users, who can check their emails received and sent. To disable this feature, for example, to a private account, check **This account is private (only I have access)**.

Once configured your account click 'Update'. Accounts created will appear in new tabs so you can change settings or delete them whenever you want.
